March 6-10, 2017

# THE AFRICAN LANDSCAPES DIALOGUE

## INTEGRATED LANDSCAPE MANAGEMENT IN PRACTICE

All those working to achieve sustainable development and climate resilience in Africa, please save the dates for this vital knowledge-sharing event.

Community organizations, local governments, land managers, businesses, and other stakeholders across Africa are increasingly attempting integrated landscape management under dozens of different names, including forest landscape restoration, model forests, sustainable land and water management, and agriculture green growth corridors, to list just a few.

The African Landscapes Dialogue will convene these communities of practice to learn from each other through:

- Sharing best practices from their own landscapes
- Sharing lessons learned from research and experiences across landscapes and countries
- Exchanging tools and resources
- Study tours of landscape initiatives in the Ethiopia Landscape Learning Network
- Cross-sectoral conversations
- And more...

**VENUE:**  
ADDIS ABABA, ETHIOPIA  
HORN OF AFRICA REGIONAL  
ENVIRONMENT CENTER
